STEP 1 OF 4

Open invoices are pulled in and checked to see which ones are overdue.

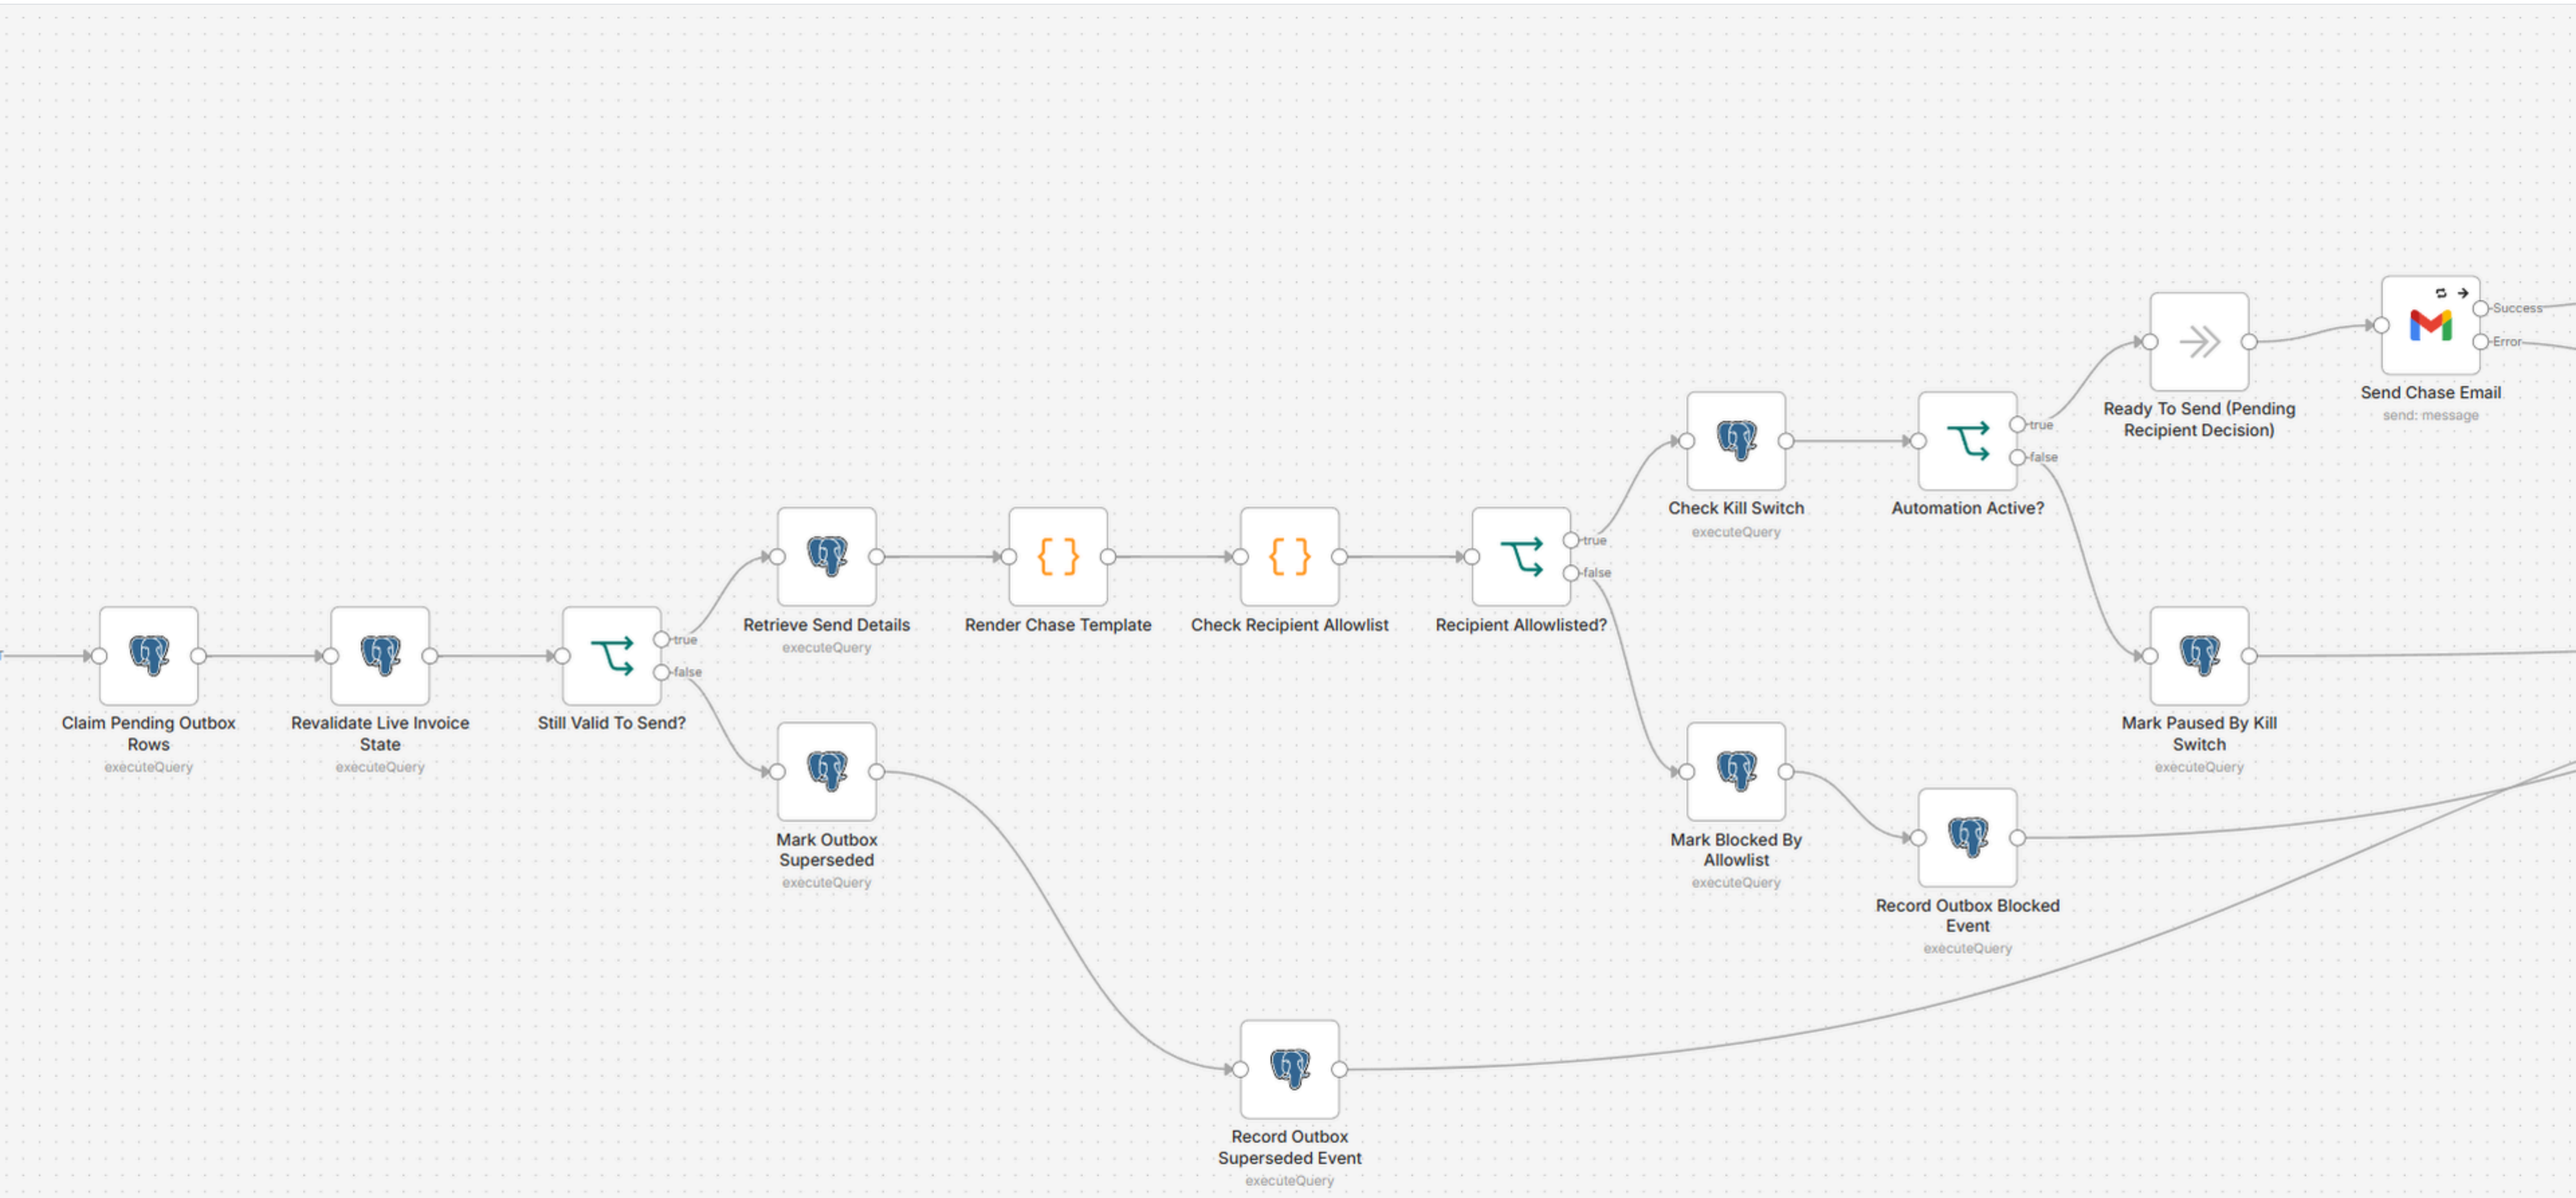

Each customer gets one reminder, with the tone set by how late the payment is. Final notices are held back.

STEP 3 OF 4

Before any reminder goes out, it is checked again: still unpaid, correct recipient, stop switch off.

STEP 4 OF 4

Customer replies are sorted: a promise to pay pauses reminders, a dispute stops them, anything unclear goes to a person.
